A "**Large Accelerated Filer**" has an aggregate market value held by non-affiliates of \$700m or more as of the last business day of the most recent Q2. Once you are in, you have to fall below \$560m to get out or meet the applicable smaller reporting company revenue test.

An "**Accelerated Filer**" has an aggregate market value held by non-affiliates of greater than \$75m but less than \$700m as of the last business day of the most recent Q2 (unless you were previously a Large Accelerated Filer, in which case the range is \$60m-\$560m). Once you are in, you have to fall below \$60m to get out or meet the applicable smaller reporting company revenue test.

A "**Loss Corporation**" does not expect to report positive income after taxes but before extraordinary items and changes in accounting principles for (a) the most recently ended fiscal year and (b) at least one of the two prior fiscal years.

**Special Accommodation for Timely Filers:** The SEC Staff generally provides an accommodation for repeat issuers that have been timely filers for the past 12 months by allowing such issuers' registration statements to become effective during the gap period between the staleness date and nearest periodic report filing deadline, absent unusual circumstances. As a result, for most repeat issuers, the effective staleness date is the same as the applicable 10-K or 10-Q filing deadline.
