**M**anaging IP's annual awards dinners were held in London and Washington, DC in March, and attended by guests from all over the world. The winners of the awards were firms and individuals who have made outstanding contributions to IP work over the past 12 months. The North America awards also recognised the landmark cases of the past year in the US and Canada.

Winners of the awards were selected following Managing IP's annual research into the IP market, as well as with reference to publicly available information, client and peer comments. The awards take into account all activity in the past year, including

successful cases, notable client wins and innovative approaches to the law.

Congratulations to all the winners, and those shortlisted, on their achievements and the contribution they have made to the development of IP practice.

Managing IP does not endorse any of the firms or individuals featured. Winners are chosen on an independent and fair basis: no firm can nominate itself for an award, or otherwise seek to influence the decision-making.
